SOFTWARE PROJECTS ([Portfolio](#))

ArtVerse Alpha! | [Github](#) • [Live Demo](#)

Sep 2024 - May 2025

An interactive social platform for artists to post, save, and engage with artwork

- Designed and developed a full-stack art-sharing application with features like likes, comments, favorites, and a custom 'Bubble' system for organizing content
- Implemented search functionality, profile editing, and modal-based post interactions with visual polish and responsive design
- Built and integrated over 40 backend routes using Next.js API routing, PostgreSQL, and authentication via bearer tokens

Starbucks Clone | [Github](#) • [Live Site](#)

Jan 2023 - Feb 2023

A pure front-end clone of a popular coffee shop's site including Home, Menu, Rewards, and gift card page.

- Built a 4-page static Starbucks clone using React, HTML, CSS, and Typescript to mimic modern UI patterns.
- Constructed mobile friendly design and functionality
- Manually combed and constructed the entire Starbucks menu

EXPERIENCE

Shopper - Whole Foods Market

Brooklyn, NY | Oct 2024 - Present

- Efficiently processed customer orders by picking, packing, and staging items for Amazon drivers.
- Assist with incorrect orders and refunds to ensure customer satisfaction and order accuracy.
